

Supported browsers

This documentation, including images, videos and text, is accurate as of Version 5.12 of Pascal.

We strive to keep our documentation up to date with each release to ensure it remains a reliable resource for our users. However, given the dynamic nature of our software development, there might be instances where changes introduced in subsequent versions are not immediately reflected in this documentation. We encourage users to refer to [the latest release notes](#) and to use the feedback mechanism for any discrepancies or requests for clarification.

Pascal is fully supported by the four most popular browsers.

- **Google Chrome.**
- **Microsoft Edge.**
- **Mozilla Firefox.**
- **Safari.**

Full support is provided to any of these browsers when using a version that was released within the last two years. Pascal could still work with older versions, but full support is not guaranteed.
