Pascal via Microsoft Azure Marketplace

This documentation, including images, videos and text, is accurate as of Version 5.12 of Pascal.

We strive to keep our documentation up to date with each release to ensure it remains a reliable resource for our users. However, given the dynamic nature of our software development, there might be instances where changes introduced in subsequent versions are not immediately reflected in this documentation. We encourage users to refer to [the latest release notes](#) and to use the feedback mechanism for any discrepancies or requests for clarification.

If you have received access to Pascal via the Microsoft Azure Marketplace, your Pascal environment will work slightly different than environments which are not linked to the Microsoft Azure Marketplace.

The Billing page

The Billing pages can be used to edit your current plan, view your past invoices and update your payment methods if you have a paid subscription. Editing your plan enables you to change the datasets you are using and which monitoring frequency you would like to use in Pascal.

> *Changing the monitoring frequency of your plan in the Billing details page is only possible in a paid environment.*

If you would like to view your current costs, change your invoicing settings or upgrade your plan, the subscription page of Pascal in your Microsoft Azure environment should be used.

Free - 1-month subscription   Billing term   Recurring billing

✅ Subscribed

Create 5 cases per month for free.

Change plan

1-month subscription

Starts 3/13/2023

Ends 4/12/2023

View billing

Recurring billing: On

Renews on: 4/13/2023

Edit recurring billing

Editing the subscription in Microsoft Azure

By going to the subscription page of Pascal in Microsoft Azure, you can upgrade your plan from a free to a paid subscription. It is also possible to view the billing.

It is not possible to continue using Pascal with recurring billing turned off. If recurring billing is turned off, your Pascal environment will be deleted when the current billing term ends.

It is not possible to change a paid subscription to free.
