

How to edit groups in Pascal

This documentation, including images, videos and text, is accurate as of Version 5.12 of Pascal.

We strive to keep our documentation up to date with each release to ensure it remains a reliable resource for our users. However, given the dynamic nature of our software development, there might be instances where changes introduced in subsequent versions are not immediately reflected in this documentation. We encourage users to refer to [the latest release notes](#) and to use the feedback mechanism for any discrepancies or requests for clarification.

An organisation owner or admin can edit groups for their organisation.

- 1** Click on your initials in the top right corner.
- 2** Select Settings besides your Pascal environment's name.
- 3** Navigate to the Groups page in the Organisation section.
- 4** Select the Pen icon in the Actions section of the group.
- 5** The name and related users can now be edited.
- 6** Select the Apply button.

The group has now been edited.
