

How to share your great ideas for Pascal

This documentation, including images, videos and text, is accurate as of Version 5.12 of Pascal.

We strive to keep our documentation up to date with each release to ensure it remains a reliable resource for our users. However, given the dynamic nature of our software development, there might be instances where changes introduced in subsequent versions are not immediately reflected in this documentation. We encourage users to refer to [the latest release notes](#) and to use the feedback mechanism for any discrepancies or requests for clarification.

If you have a feature or change you would like to see in Pascal, you can share your ideas with our support team. We are always eager to hear from our users how they like Pascal.

Sharing your ideas

The following options are present to communicate with our team:

- **Mail us** - This option will open your default email provider and start composing a new message to send to our Pascal support team (pascal.support@vartion.com) with the feature you would like to be added to Pascal.
- **Feature request** - This option will open a new window where you can describe the feature you would like to see in Pascal with an option to upload images related to the feature you would like to request.

You can find these options by following these steps:

- 1 Select your initials in the top right corner.
- 2 Click on Need help?.
