

5.0 New billing and products system

In this update, we have changed the way billing and products looks and works. Users with the roles owner or billing manager will be able to see the new **Billing and Products** page. Where your current usage, next payment and selected products is visualised more clearly.

This new system enables you to manage your active datasets and monitoring preferences yourself. (Changes in your products can lower or raise your monthly costs.)

The screenshot shows the 'Billing and Products' settings page. The top navigation bar includes 'Home', 'Clients', 'Cases', 'Statistics', 'Data Directory', and 'Settings' (active). The left sidebar has icons for a home, notifications, and user profile. The 'Settings' section has tabs for 'Account', 'Configuration', 'Languages', 'Users', 'Groups', 'Policies', 'Services', 'Billing and Products' (active), 'Integrations', 'Risk Classification', and 'Import'.

The 'Billing and Products' section displays three key metrics:

- Current usage:** €39,17 (with a 'Show breakdown' link)
- Next payment:** 01/03/2023
- Plan:** Pay as you go

Below these metrics is the 'Products' section, which includes a 'Price per case / year' table and a list of selected products.

Product	Price per case / year
Cases	Active: €3.00, Archived: €1.00
Monitoring frequency	<input type="radio"/> No monitoring (€0.00), <input checked="" type="radio"/> Daily (€3.00), <input type="radio"/> Weekly (€2.00), <input type="radio"/> Monthly (€1.00)
