

6.6 Bulk editing Case sources and monitoring frequencies

In Pascal 6.6, we introduce the ability to edit sources and monitoring frequencies for multiple cases at once. This new feature allows you to efficiently update searched sources of specific cases, and the frequency of monitoring sources.

How It Works

- 1 Updating Monitoring frequencies:**
Navigate to the Cases page and click Edit in the top right corner. Select the cases you want to update the monitoring frequencies of. Click on Edit monitoring frequencies in the edit bar on the bottom. In the new panel, the monitoring frequency per source can be updated to Daily, Weekly, Monthly, Quarterly and Yearly, Or the monitoring of a source can be turned off by selecting No monitoring.
- 2 Updating Sources:**
Navigate to the Cases page and click Edit in the top right corner. Select the cases you want to update the monitoring frequencies of. Click on Edit sources in the edit bar on the bottom. In the new panel, the sources you want to include in the selected cases can be checked on. All sources which are checked off, will be removed from the cases, if they were enabled before.

How It's Beneficial

- **Efficiency:** Easily update multiple cases at once.
- **Flexibility:** Create alterations of screenings by customising sources and monitoring frequencies.
