In Pascal's 6.6 update, we introduce the Forms page in Pascal Onboarding. In this new page, all form templates are presented in a list overview in which you can easily manage and update the forms.

How It Works

Forms page:

Navigate to the Forms page and view your existing form templates here. New forms can be added with the Create form button. Existing forms can be edited by clicking on the form. Forms can be deleted by opening the form, and clicking the Remove button.
